Vision Of Lightner Box

The Best Teacher for Learning English

Alireza Zeyghami

Vision Of Lightner Box

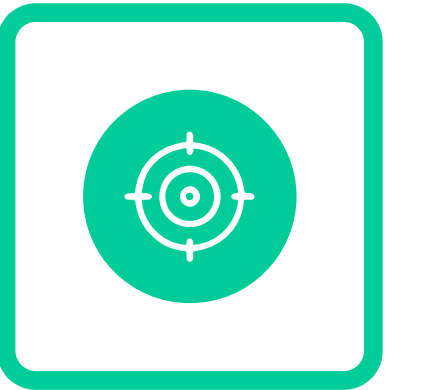

To solve the problem of finding an easy and available teacher for passionate students worldwide to learn English, this idea came to develop an application that provides requirements tools.

Lightner Box

An easy and available teacher for learning English without restrictions of place and time

Macro Aims of Product

Development of tools for learning four main skills covering speaking, listening, writing, and reading in English

Product Mission

The product will be an open-source application in order to the advancement of technology, and humanitarian purposes without any profit motive.

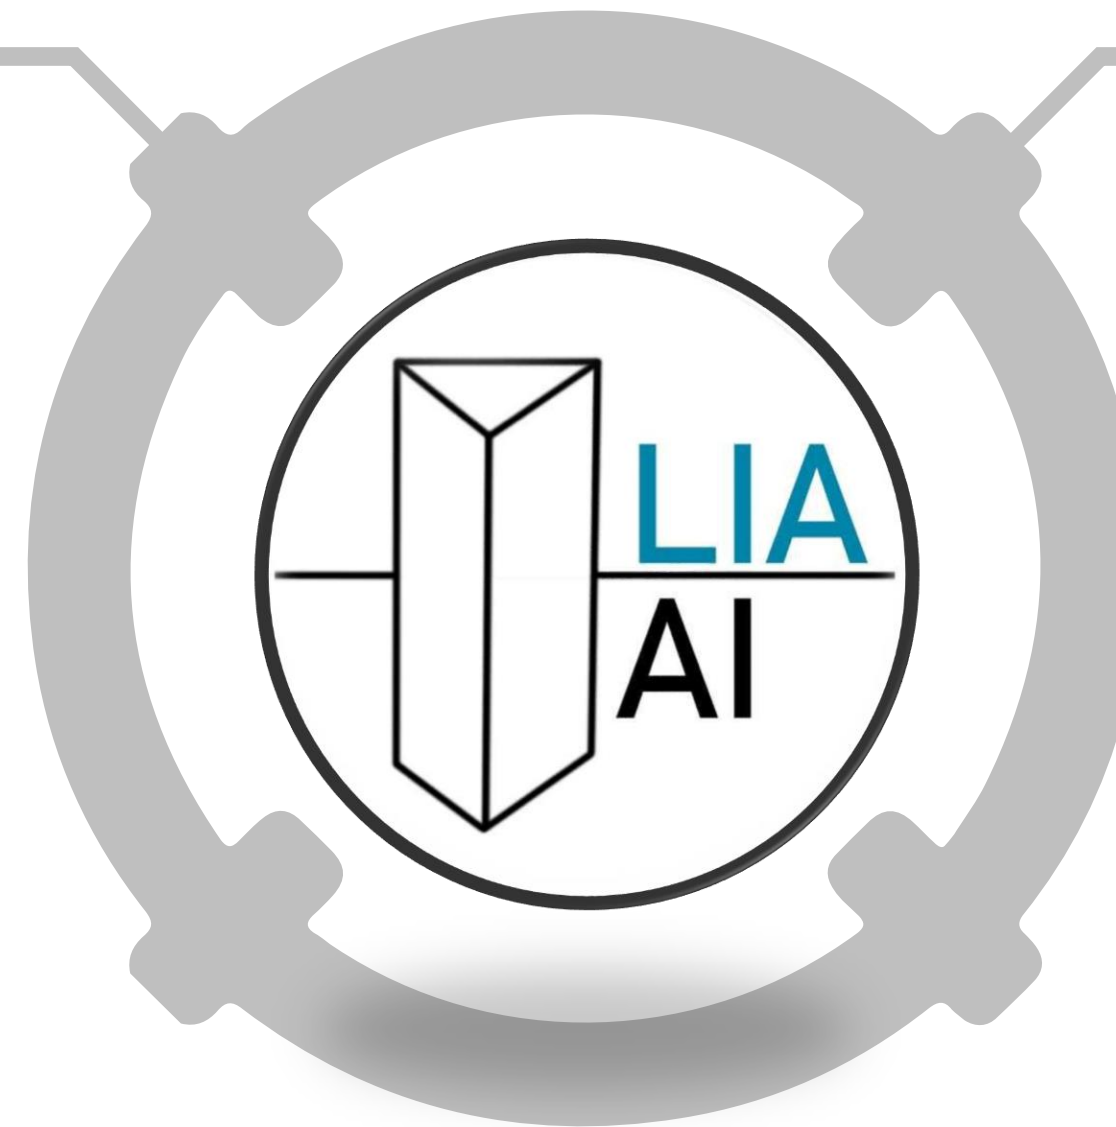

Audience community and stakeholders of the Product

Developers

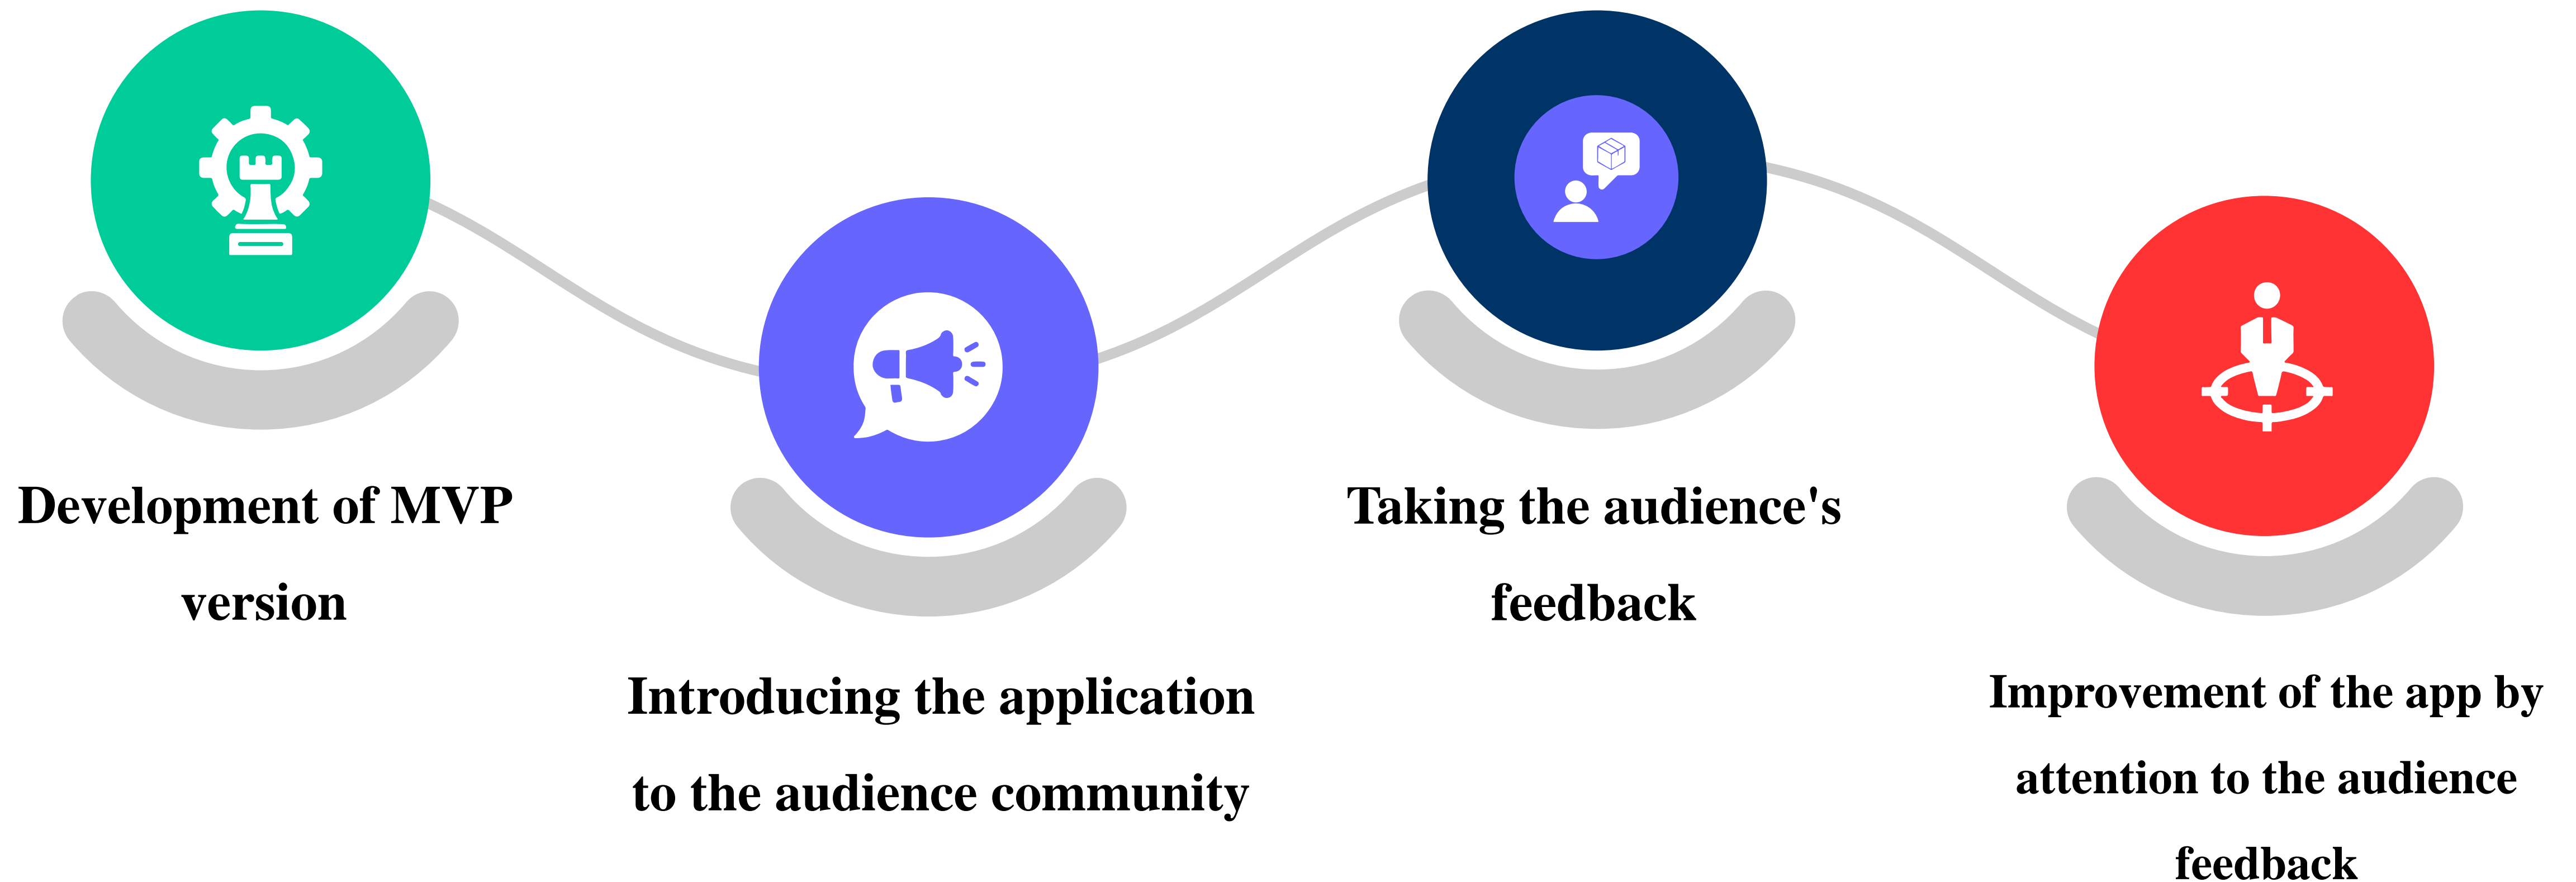

Active developers who have a passion for participating in open-source programming.

English learners

Students who are interested in learning English, but have not access to effective education.

Roadmap Of Lightner Box

Thank you for your attention, dear ones.
